

Logging onto the Controller

Version 2

READY CHARGE FAULT

OBS!

Uttaget är låst under laddning.
Laddningen måste avslutas
innan laddplugg kan avlägnas.

ATTENTION!

Outlet locked while charging.
Charging must be terminated
before charge plug can be removed.

2

Logging onto Controller Version 2

Step 1

You will need: A Laptop and a micro-USB to USB cable. This should be plugged in from your laptop to your charge controller. If the charger has two charge controllers make sure you plug into the charge controller on the right-hand side and **DO NOT** remove any cables or links between the charge controllers.

Step 2

Plug into the controller on the right-hand side where says config.

Step 3

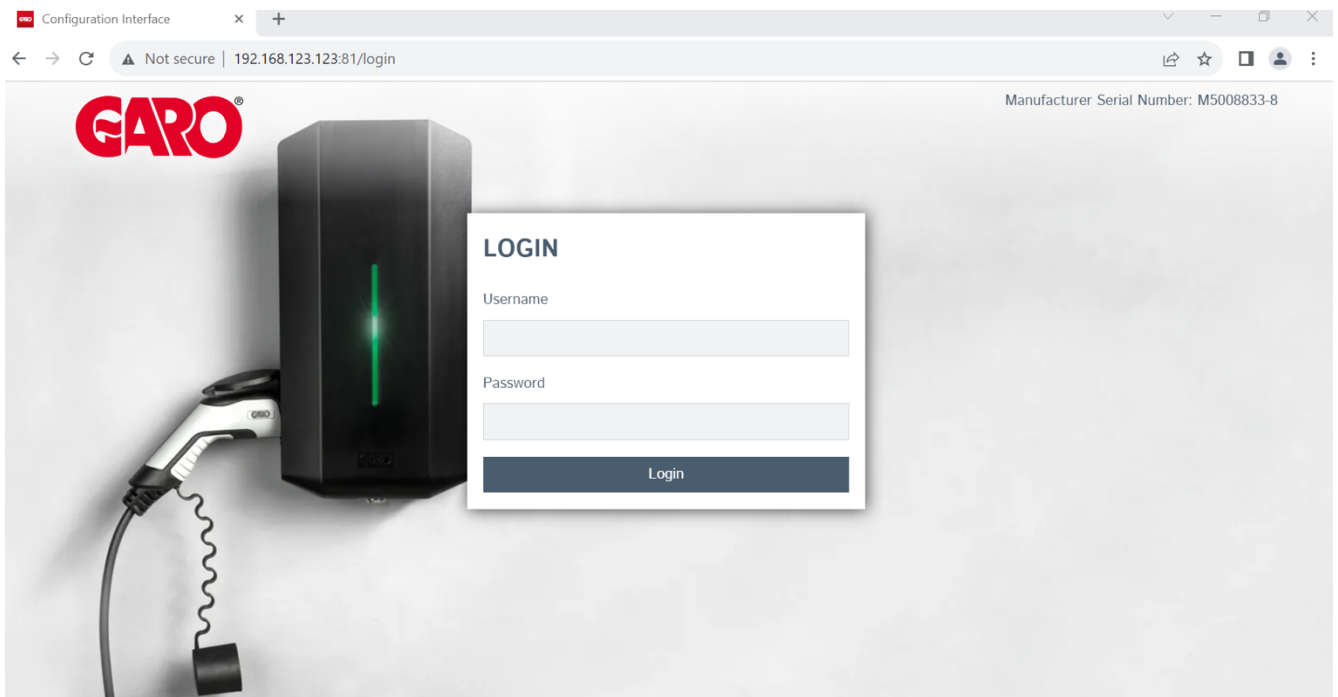

Once plugged into the controller open a new web browser. Enter the following address in the top search bar **192.168.123.123/operator**.

Step 4

You will then come to the home screen as seen below.

Username	operator
Password	cherry_zone or yellow_zone

Step 5

Please now revert to the appropriate next steps – you will find all the user guides in the QR code below.
