

## RESIDUAL CURRENT BREAKERS with OVER CURRENT PROTECTION

GARO's offer a full diverse range of RCBO's. Our 'Type A' RCBO range breaks both the phase and neutral conductors. Operating on voltages from 110V to 230V. It is an extremely versatile product and can be utilised in new and existing installations. In existing installations, it allows the installer to keep there original distribution board, as an MCB can easily be exchanged for an RCBO. There is a full range of busbar and busbar accessories available, to make even the most challenging projects simple. This product must be fed from the bottom and load to the top.
