Next Generation Consumer Units

www.garro.ie

We have designed our consumer units to meet the modern electrical demand of today while being fully prepared for the challenges of tomorrow. With the growing need for efficiency, sustainability, and innovation, our solutions are built to support the evolving energy landscape, ensuring reliable and future-ready performance.

What's Included In The Range?

- Our consumer units are engineered to deliver unmatched reliability and performance, offering key features that set them apart:
- Built-In Surge Protection – Safeguards your installation from voltage spikes and transients.
- Extra 6A MCB Included – Added convenience for fixed equipment such as smoke alarms.
- Compact RCBOs (6A x 2) – Space-saving design for lighting circuit protection.
- Extended Busbars – Ensures secure, low-resistance connections with room for future upgrades.
- Spare Capacity – Ready for future expansion without reconfiguration.
- Main Switch / Circuit Breaker Options – Choose the configuration that offers best protection of electrical installation.

Next Generation of Consumer Units - Surface

G224B-8S

New 8 Way 2 Row Surface Board
24 Mods with Main MCB
& Surge

11 modules spare capacity

G224I-8S

New 8 Way 2 Row Surface Board
24 Mods with Main Isolator &
Surge

11 modules spare capacity

G336B-8S

New 8 Way 3 Row Surface Board
36 Mods with Main MCB
& Surge

23 modules spare capacity

G336I-8S

New 8 Way 3 Row Surface Board
36 Mods with Main Isolator &
Surge

23 modules spare capacity

Next Generation of Consumer Unit - Wide XL Range

G354B-8S

New 8 Way 3 Row Surface Board
54 Mods with Main MCB & Surge

41 modules spare capacity

To Replace
The Following

G354B-7B
G354B-7BS

G354I-8S

New 8 Way 3 Row Surface Board
54 Mods with Main Isolator & Surge

41 modules spare capacity

G354I-7B
G354I-7BS

Next Generation of Consumer Unit - Enhanced 16kA Supply

G236B-8SE

New 8 Way 2 Row Surface Board 36 Mods with Main MCB & Surge

22 modules spare capacity

G236I-8SE

New 8 Way 2 Row Surface Board 36 Mods with Main Isolator & Surge

23 modules spare capacity

G354B-8SE

New 8 Way 3 Row Surface Board 36 Mods with Main MCB & Surge

40 modules spare capacity

G354I-8SE

New 8 Way 3 Row Surface Board 36 Mods with Main Isolator & Surge

41 modules spare capacity

To Replace
The Following

Trusted Reviews

"Very good service - G&L electrical intech"

"It's all Fantastic - Balmain Electrical"

"Good Quality - SCP"

"They are a good board. Simple to work on, plenty of space and nice breakers - Martin O'Toole Ltd"

"I think with the access to courses on products, the products themselves, customer support, you are well ahead of the competition - REFS Ltd"

Upcoming Project?

Our projects team is ready to assist. Whether you're in the early planning stages or ready to get started, we're here to help.
