# SAFETY SWITCHES FOR EV

*Strong, Safe, Secure.*

GARO offer a range of safety switches including Solar DC Isolators. They ensure breaking and making of circuits whilst on-load. The external handles provide protection against the live parts and IP ratings provide additional protection against environmental elements, such as dust, water and other hazards. The safety switches allow electrical circuits to be isolated as close to the equipment as needed.

## Safety Switches - Product Features

- ✓ Safety Switches are available in 3 Pole
- ✓ The Switches range from 32A - 40A
- ✓ Mainly used in EV installations
- ✓ Installer Friendly
